◆ Product data Common to members/non-members

(1) Use each search function to display a list of product search results.

(2) Material can be downloaded by clicking the button for the material you wish to obtain.

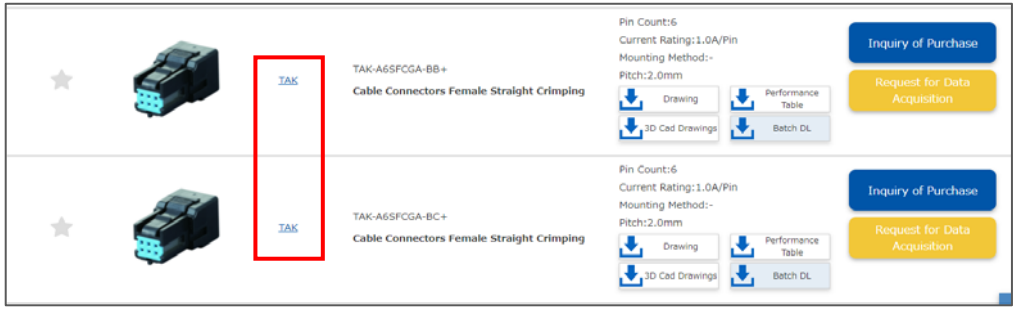

* Material available to non-members is limited.

Only drawing data is displayed on smartphones.

◆ Catalog Common to members/non-members

- (1) Use each search function to display a list of product search results.
- (2) Click the series name.

- (3) A series overview page opens.
Catalogs can be downloaded by clicking the "Catalog" button.

Product Overview

TAK Series Compact High-Speed Transmission Connectors

Specifications	
Pin Count	4,6,8
Pitch	2.0
Current Rating	TAK-V:2.5A/Pin TAK-A:1.0A/Pin
Mounting Method	1,000MΩ at500V D.C.
Dielectric Withstanding Voltage	500V A.C.(r.m.s.) for a minute
Contact Resistance	50mΩMAX
Operating Temperature	-40°C~+105°C

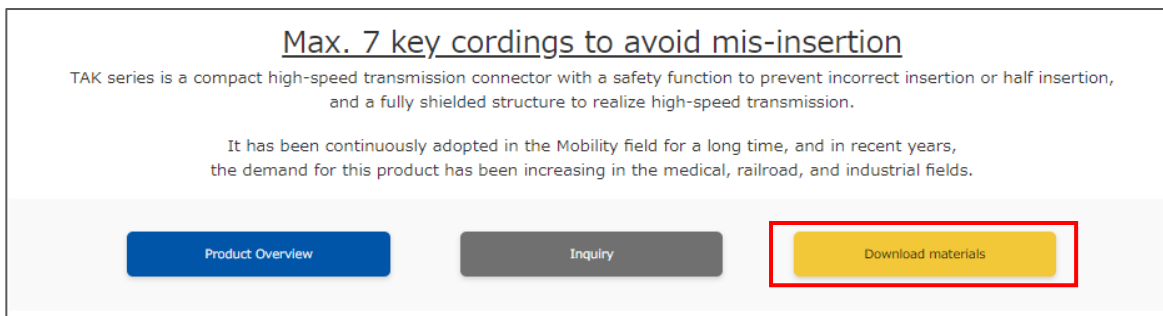

Overview
These compact, high-speed transmission connectors are equipped with a function which prevents wrong insertion and half-insertion. Improving noise immunity with fully-enclosed shield construction has realized the high-speed transmission of signals for such as USB and LVDS, and the power supply needs of mobile devices and so on can also be met with 2.5 A transmission despite the product's compact size.
